

JBWA SKYWARN Training Net Script

Revised for June 2022

This is (callsign) calling the Jim Bell Wireless Assn SKYWARN Training Net OSCAR into session. My name is _____. This net meets the first Thursday night of each month at 7:30 pm Central Time on the 146.67 repeater, with a 103.5 tone. As backup, we use the 145.19 repeater, with a 103.5 tone, and 146.56 simplex. We are part of the Alabama Emergency Net system and meet to practice emergency communications and to foster disaster preparedness.

When you check in, please provide your call, first name, and county of your current location. Don't use phonetics unless requested.

SKYWARN net controllers, check in now. (Wait for response, read back check-ins)

Stations with announcements or traffic, call now.

Go ahead and give your announcement.....(Repeat as needed)
Any questions about this announcement?

Check-in will be by the first letter of your call-sign suffix.

- A through H, ALPHA through HOTEL call now (ask for additional until none heard)
- I through Q, INDIA through QUEBEC call now
- R through Z, ROMEO through ZULU call now
- Additional check-ins, any call sign suffix, call now.

Tonight's training net had a total of _____ participants, including net control. Thank you for your participation in amateur radio public service. This is (callsign) closing this session of the Jim Bell Wireless Assn SKYWARN Training Net OSCAR and wishing all a good evening.

(Report number of check-ins to ribet@mon-cre.net).
